

1. IDEAS

Cholera/Typhoid/ Hep A Rate

⑦ Expenditure @ water treatment plants

2. Filter

- there are no duplications
- ⑦ is unsuitable as there is not enough data

3. Categorize

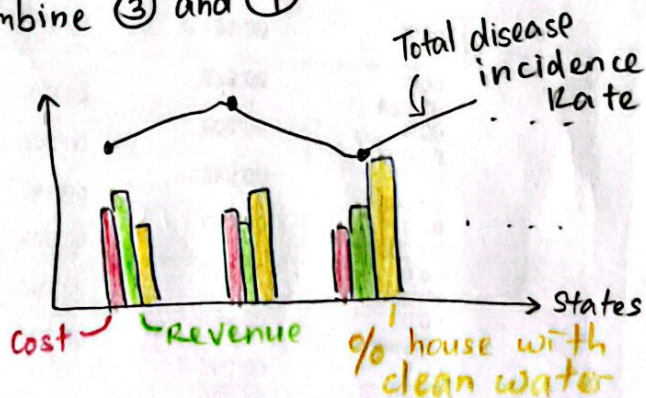

- ① and ② are similar (both maps)
- ③ and ④ are similar (both Bar Charts)
- ④ and ⑤ Both compare the same fields.
- ⑧ shows the fields in ③ and more ☺

4. Combine & Refine

- Combine ① and ②

- Combine ③ and ④

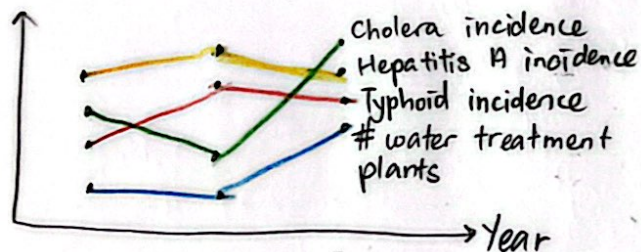

5. Does this satisfy the Why?

Title : sheet 1
Date : 1/10/2024

ID : 33412804
Version : 1

Layout

- ☐ Cholera
- ☒ Typhoid
- ☐ Hepatitis A
-  Disease
-  % houses with clean water

Focus

Johor

Cholera incidence : ____
Hep A incidence : ____
Typhoid incidence : ____
% houses with clean water : ____

- ☒ Cholera
- ☐ Typhoid
- ☐ Hep A

Operations

1. Hover over a State To view more details on disease incidence rates and more.
2. Tick disease checkbox to show incidence rate of the disease in the map.

Discussion

- interactive
- shows relationship between all fields
- shows national summary of fields (chart 3)

- Does not show more focus and details on a particular state.
- chart 2 incorporates all fields, overwhelming for viewers, patterns may be hard to observe.
- Chart 3 is boring and does not allow more explorations
- Dashboard lacks storytelling essence.
- Dashboard lacks a purpose.
- Available data is not enough to make Chart 3.

Title : Sheet 2

Layout

- ☐ Cholera
- ☐ Typhoid
- ☐ Hepatitis A

Explore States

Facts about state in regards to each Field.

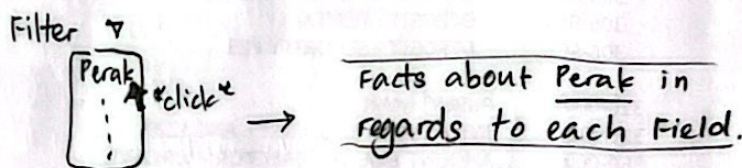

Operations

- Hover over a state to show tooltip for more info.
- Click on any mark in charts 1-3 to highlight the state in charts 1-3
- Use filter to select a state demographic to explore in chart 4.

Focus

hover, Johor
 cholera incidence rate : _____
 Typhoid incidence rate : _____
 Hepatitis A incidence rate : _____
 % houses with clean water : _____

Discussion

- 😊 • more interactivity
- more nuanced data representation
- Fields broken up into parts, less overwhelm.
- 😞 • Still lacks storytelling elements.

Title : Sheet 3

Name : Alicia Chong Pei Qi

ID : 33412804

Date : 01/10/2024.

Layout

Into the diseases

(not so fun) facts!

cholera
Typhoid
Hepatitis A

Disease Rate

% houses with clean water

water treatment plant expense

% houses with clean water

Explore States

Focus

Hover

State 1

Field 1 :
Field 2 :
Field 3 :

click

info about the diseases, create the start of your narrative

Data Facts of a State.

Filter

Filter by State.

Operations

- Hover over a state to show tooltips for info
- Click on any mark on chart 2-4 to highlight State in charts 1-3
- Use filter to select a state demographic to explore.

Discussion

- ↑ interactivity
- ↑ storytelling
- ↑ nuanced data presentation
- Fields broken into bit-sized parts.
- High complexity for creating
- IDK how to have >1 charts share selected state

Title: Sheet 4

Date: 02/10/2024

Author: Alicia chong Pei Qi
